Explanation of Fees and Levies

| | |
|---------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| School Fees | School Fees assist in covering costs associated with the everyday operations and running costs of our school. In addition, they cover the Archdiocesan Education Levy paid to the Brisbane Archdiocese by all BCE Schools. Together with government funding, this provides for staffing and the functioning of all BCE schools, offices and service centres. |
| Capital Levy | This levy is NOT tax deductible. It is a compulsory levy used to assist the school in financing loans associated with our building programs. It also covers regular maintenance and upkeep of all our school facilities. |
| P&F Levy | The levy ensures that there is an equitable contribution of all families to the activities of the P&F in support of our school. It, combined with monies raised through P&F fundraising events, finances initiatives that aid the development of facilities and resources of the school. |
| Student Levy | Covers the cost of technology resources and their maintenance, student activities including transport costs, incidental costs associated with oval maintenance, photocopy maintenance and consumables eg: paper, tissues, hand soap. |
| Resource Levy | This levy covers a variety of costs associated with the education of our students. Such costs include classroom and subject specific resources and consumables. |
| Voluntary Building and Library Funds | These funds are completely voluntary and are tax deductible. These funds provide another avenue to enable the enhancement of our school resources and maintain facilities. If you would like a statement detailing amounts donated, please contact the office. |
